

Instructions for Use of Solid Compound Seasoning

1. Applicable Uses

Suitable for marinating chicken, duck, pork, beef, fish, shrimp, and various other ingredients. Compatible with multiple cooking methods, including deep-frying, grilling, pan-frying, braising, and stewing.

2. Recommended Ratio (Marinade : Ingredients)

- **Household use:** 3%–5% (30–50g seasoning for every 1000g of ingredients)
 - **Commercial use:** 4%–6%
- Adjust the amount according to personal taste preferences.

3. Preparation Steps

Step 1: Clean and cut the ingredients as needed, then drain excess moisture. (For meat, small cuts or punctures can be made to improve flavor absorption.)

Step 2: Sprinkle the seasoning evenly over the surface of the ingredients. Mix, knead, and massage thoroughly to ensure the seasoning is evenly distributed.

Step 3: Seal and marinate.

- Marinate at room temperature for **30–60 minutes**.
- For better flavor absorption, refrigerate and marinate for **4–12 hours**.

Step 4: After marinating, the ingredients can be directly coated with flour/breading and processed by deep-frying, grilling, or pan-frying. No additional seasoning is required.

4. Usage Tips

- Refrigerated marinating helps prevent spoilage and improves flavor penetration.
- Do not use excessive seasoning to avoid overly salty flavors or excessive spice intensity.
- Process and consume marinated ingredients as soon as possible. Do not leave them at room temperature for extended periods.

5. Restrictions and Safety Precautions

- This product is a **food processing ingredient** and is intended only for food preparation. Do not use it for any non-food purposes.

- Do not use the product if it has absorbed moisture, formed lumps, developed mold, unusual odors, or changed color after opening.
- When deep-frying, strictly control the oil temperature to prevent burning or the formation of harmful substances caused by overheating.
- Individuals allergic to wheat, grains, or spices should avoid consuming foods processed with this product.
- Children must be supervised by adults when using this product to prevent burns from hot oil or high-temperature cooking.
- Follow the recommended dosage and processing instructions strictly. Do not add unknown or unauthorized ingredients.
